

KAYDEN IONS

Blenheim, ON Canada • +1 519-365-6278 • Kaydenions@gmail.com • linkedin.com/in/kaydenions/

Computer Science graduate with experience in teaching, IT systems, and full-stack development. Skilled in Java, Python, and database design, with hands-on experience supporting systems, leading student labs, and organizing digital records. Strong problem-solving and collaboration skills.

TECHNICAL SKILLS

Languages: C, Java, Python, JavaScript, TypeScript, SQL

Frontend: HTML, CSS, JavaScript, React

Backend: PHP, SQL, Database Design

Tools & Technologies: Git, GitHub, Power BI, Microsoft 365

Concepts: Network Architecture, Object-Oriented Programming, Data Structures, Algorithms

Other: Team collaboration, communication, problem solving

Work Experience

Teaching Assistant | University of Windsor

SEPT 2024 – JAN 2025

- Evaluated assignments, labs, and exams for university-level Java courses
- Led programming labs, supporting students in understanding core programming concepts
- Collaborated with professors and TAs to improve student learning outcomes

Clerical IT | McNaughton Ave Public School, LKDSB

MAY 2023 – AUG 2023, MAY 2024 – SEPT 2024, MAY 2025 – SEPT 2025

- Digitized and organized school records using Laserfiche, improving data accessibility
- Ensured accurate data entry and file management for administrative systems
- Worked with IT staff to support secure and efficient system operations

Resident Assistant | University of Windsor

AUG 2023 – MAY 2024

- Organized events and built community among students in residence
 - Provided support and conflict resolution for residents
 - Demonstrated leadership, time management, and communication skills
-

Projects

Food Delivery Web Application (Group Project)

- Developed a full-stack food delivery web application with dynamic user interaction
- Implemented backend functionality using PHP to process orders, manage user input, and interact with the database
- Designed and queried a relational database using SQL for menu items, users, and order tracking
- Built responsive frontend components using HTML, CSS, and JavaScript
- Collaborated in a team to design, develop, and test features across the application

Library Management System (Individual Project)

- Designed and developed a full-stack library system independently from concept to implementation
 - Created and managed a relational database to store and retrieve book and user information
 - Implemented backend logic using PHP for handling user actions and database operations
 - Built frontend interface using HTML, CSS, and JavaScript for user interaction
 - Applied object-oriented programming principles and database design concepts
-

Education

University of Windsor, Bachelor's of CS

SEPT 2022 – APR 2026

- Dean's List (2023)
-

Additional

- CPR & First Aid Certified (valid until Aug 2026)
- Currently learning French
